Certified Organic Starter Plants
Grown by the Organic Experts

Organic gardeners choose organic transplants.
“Grown to thrive in soil that’s alive”

Organic plants develop a healthy root system that is capable of extracting nutrients from sources in the soil rather than relying on a synthetic chemical diet.

Metro area delivery beginning April 26th through the month of May

Rolling display cart rental available

Certified Organic Starter Plants

Grown by the Organic Experts

Certified Organic Leafy Green Seedlings

Greenleaf
Lettuce

HYBRID 52 day. Heat and tip burn tolerant.
Best warm season flavor.

Jericho
Romaine
Lettuce

HYBRID 52 day. Heat and tip burn tolerant.
Best warm season flavor. Crisp and tender
hearts.

Red Fire
Redleaf
Lettuce

HYBRID 55 day. Makes a heavy head of well
colored, frilly leaves with delicious flavor and
texture.

Bright Lights
Chard

HYBRID 55 day. Stems of many colors
including gold, pink, orange, purple, red, and
white. Milder flavor than Swiss chard.

Arugula

HYBRID 21 days baby, 40 days full size.
Spicy/peppery flavored salad green with long,
dark lobbed leaves. Great alone or as salad
mix.

Renegade
Spinach

HYBRID 45 day. Bolt resistant with dark green,
oval leaves. Proven full season, sweet tasting
spinach.

Certified Organic Hybrid and Open Pollinated Tomato Seedlings

Early Girl

HYBRID 62 days. Indeterminate. Early great
tasting tomato. Excellent disease resistance
and vigorous growth.

Peacevine
Cherry

OPEN POLLINATED 78 Days. Indeterminate. A
de-hybridized selection of the Sweet 100 F1
hybrid known for its incredible flavor and
resistance to cracking.

Certified Organic Hybrid and Open Pollinated Tomato Seedlings

Sungold
Cherry

HYBRID 65 days. Indeterminate. Rapidly becoming the most popular cherry tomato of all time. Prolific, sweet, deep orange 1" fruits. A sure producer in warm or cool years.

Black Cherry

HYBRID 64 days. Indeterminate. Sweet and robust with round fruits almost black in color. Prolific plant with dynamic flavor.

Speckled
Roman

OPEN POLLINATED 78 day. Indeterminate. Very beautiful, meaty, 4-6" long red paste tomato with excellent flavor and wavy yellow stripes. Exceptional for fresh eating and sauce.

Certified Organic Heirloom Tomato Seedlings

Czech Bush

HEIRLOOM 70 day. Determinate. Great for container gardens. Heavy yield with 4-6 oz fruits early in the season.

Brandywine
Red

HEIRLOOM 82 day. Indeterminate. Big beautiful 1 lb+. Classic variety known for its perfect balance of sugars and flavor. Flesh is smooth and juicy.

Cherokee
Purple

HEIRLOOM 72 day. Indeterminate. Brownish-purple skin, green shoulders and red flesh. The most popular of the "black" tomatoes. Outstanding flavor, large fruits weigh 12-16 oz.

Striped
German

HEIRLOOM 78 day. Indeterminate. The flat, medium to large, variably ribbed-shoulder fruits have a marbled interior. Beautiful slicer. Complex, fruity flavor and smooth texture.

Amish Paste

HEIRLOOM 80 day. Indeterminate. One of the sweetest paste tomatoes. Flavorful and juicy enough for slicing, but still meaty enough for timely cooking down. Best of all, few seeds!

Certified Organic Herb Seedlings

Genovese
Basil

68 days to harvest. Authentic flavor and appearance. Large, dark green leaves about 3" long. Ht. 24-30".

Amethyst
Basil

60 days to harvest. Leaves are like the classic Genovese. This almost black basil is a real stunner. Ht. 16-20".

Cilantro Santo
Slow Bolt

55 days to harvest. Santo is an extra slow bolting selection grown for its leaves. Classic Mexican herb.

Summer
Thyme

95 days to harvest. Superior culinary thyme. Smaller plant than winter thyme. Grown as an annual in MN.

Dill

55 days to leaf harvest. Fine, sweet leaves and bluish green color make this the variety of choice for home growers. Perfect addition to fish and for use in pickling.

Oregano

85 days to harvest. Heavy oregano aroma, great for Italian cooking. Characteristic dark green leaves with white flowers.

Mint

60 days to harvest. Savory aromatic perennial with dark green, pointed leaves and white flowers. Invasive, best if grown in containers.

Certified Organic Herb Seedlings

Italian Parsley

75 days to harvest. The preferred culinary variety. Huge, dark green leaves with great flavor. High yielding. Ht 18-20"

Sage

80-90 days to harvest. A staple of any herb garden. Dusty green leaves with a wide variety of culinary uses.

Catnip

75-80 days to harvest. Vigorous, high yielding, cat attracting plant with grey green leaves and white flowers.

Certified Organic Brassica Seedlings

Gypsy Broccoli

HYBRID 58 days. Heads are well domed and uniform. Large, healthy plants tolerate heat and are resistant to downy mildew.

Green Winterbor Kale

HYBRID 60 days. Growing up to 3-4 ft., very cold hardy. Well curled, blue green, ruffle leaves re-grow vigorously for successive harvests.

Italian Heirloom Lacinato Kale

HEIRLOOM 65 days. Tolerant to hot and cold weather. Re-grown all season long. Can reach 4' tall.

Certified Organic Cucurbit Seedlings

General Lee Cucumber

HYBRID 52 days. General Lee is a widely grown standard. High yields of sweet, crisp 8" fruits.

Certified Organic Pepper Seedlings

Banana
Pepper

HYBRID 67 days. Early plant produces heavy yields of 6" long and 2" wide bananas shaped medium hot peppers. Turns from light yellow to bright red when mature.

Early Jalapeno
Pepper

HYBRID 65 days. Dark green, medium hot, thick walled peppers 3" long and 1" wide with rounded tips. Matures to dark red.

Sweet Carmen
Pepper

HYBRID 80 days. A beautiful, sweet red pepper sure to be a favorite. Perfect for salads or roasting. Tapered fruits average 6" long.

Revolution
Red Bell
Pepper

HYBRID 78 days. Big, blocky and thick walled. Pick when green or let it turn a deep brick red. The sweetest bell we've grown.

Orange Bell
Pepper

HYBRID 78 days. Valencia ripens from green to bright orange. Plants are high yielding and sturdy. Fruits are thick and sweet.

Green Bell
Pepper

HYBRID 65 days. Large, blocky, four lobed fruit with thick walls. Highly adaptable to climate conditions and disease resistance.

Habenero

OPEN POLLINATED 80 days. Very Hot. Typical habenero with bonnet shape and shiny bright orange color.

Certified Organic Popcorn Seedlings

Tom Thumb
Popcorn

HEIRLOOM 85 day dry. Extra early open pollinated succeeds even in cold climate. Dwarf 3' plants produce 1-2 petite ears.

Certified Organic Fruit Seedlings

Seascape
Strawberries

70 Days to bloom. Ever bearing day neutral variety that produces a steady supply of fruit. Large and flavorful berries with an attractive glossy finish.

Certified Organic Allium Seedlings

Leeks

75 days. Summer harvest leek with long, slender shafts and light green flags. Mild flavored.

Walla Walla
Onions

HYBRID 110 days. Famous for its sweet flavor and fresh eating. Walla Walla is a medium to large mild onion with white flesh and light brown skin. Very cold hardy.

Certified Organic Flower Seedlings

Dwarf
Sunflower

50-55 days. Truly a “miniature” sunflower for container or garden use. Traditional, golden yellow rays with dark brown disks.

Dwarf
Thumbelina
Zinnia

65 days. Classic zinnia colors in 1-2” button like blooms adorn this truly dwarf zinnia variety. Flowers all summer long. Ht 18-24”

We grow over 100,000 transplants for our organic farm, let us grow yours too.

All of our transplants are certified organic.
Grown with certified organic seeds (whenever possible)

Grown in potting mix made locally with no synthetic “booster chemicals”.

Fed with natural fertilizers, only!

Healthy, pest free starter plants ready to set down roots in vital, organic soil.
